

WELFARE

- I want to work with the security at Trinity Ball to create a safe environment for attendees. I want to implement proper crowd control to avoid people getting injured around busy stages. I will introduce anti-spiking and drug safety measures in collaboration with my welfare officer to ensure that people can enjoy themselves in a safe and judgment-free manner.
- I want to expand the role of ents committee members by pushing for welfare training so that they can be better equipped to solve any issues that may arise at a Trinity Ents event.

LARGER-SCALE EVENTS

- With the support of Trinity Ents, societies would now become self-sufficient while also having more fluid collaboration with other societies on campus. This allows Trinity ents to shift its focus towards larger scale college-wide and intervarsity events.
- Larger-scale events provide huge sponsorship opportunities from companies such as X-Lite and red bull.
- I believe as a whole we need more philanthropic events during the college year, and with increased attendance and ticket revenue we can deliver bigger donations to the causes that deserve them

SOCIETIES

- I want to make the substantial resources of Trinity Ents available to all societies to allow them to expand the events that they run.
- In creating and maintaining a connection between myself and the ents officers of each society, I will allow them to better network and collaborate with each other on their events.
- I believe that by forming an interconnected network between all the societies, we can coordinate a weekly events schedule which would maximise society exposure and participation throughout college.

DISABILITIES

- I want to provide better quality and comfortable earplugs for people with sensory issues who still want to enjoy going to events.
- In collaboration with entertainment officers from other universities, I want to put serious pressure on all late-night venues in Dublin to make their premises accessible for those with reduced mobility and any other additional needs.

PAV REFORM

- We can open up the Pav to not only DJs but musicians and bands as well to utilize the incredible talent we have at our college.
- I want to have the Pav marquee more often throughout the year to accommodate bigger society events.
- I want to campaign for a second bar to be opened in the Pav on Fridays to fix long queues.
- If possible, I want to work with Trinity Sport to introduce a darts board or pool table which contributes to a nicer atmosphere in the Pav.
